Radiotherapy and Oncology, 15 (1989) 393–396
Elsevier

CONTENTS OF VOLUME 15

Number 1, May 1989

Foreword (The Fowler Phenomenon)
J. Denekamp v

Cell proliferation kinetics in human solid tumors: relation to probability of metastatic dissemination and long-term survival (RTO 00568)
M. Tubiana and A. Courdi (France) 1

Cell proliferation and differentiation in squamous cancer (RTO 00587)
S. Dische, M. I. Saunders, M. H. Bennett, G. D. Wilson and N. J. McNally (U.K.) 19

Expression of the dose rate effect in clinical curietherapy (RTO 00619)
J. Dutreix (France) 25

An experimental study of tumour size and radiosensitivity: analysis by regrowth delay (RTO 00600)
S. A. Hill and J. Denekamp (U.K.) 39

The high steepness of dose-response curves for late-responding normal tissues (RTO 00590)
H. D. Thames, J. H. Hendry, J. V. Moore, K. K. Ang and E. L. Travis (U.S.A., U.K.) 49

Altered radiosensitivity in a mouse carcinoma after administration of clofibrate and bezafibrate (RTO 00565)
D. *G. Hirst and P. J. Wood (U.S.A.)* 55

Why are some human tumours more radiosensitive than others? (RTO 00523)
G. G. Steel and J. H. Peacock (U.K.) 63

The effect of actinomycin D on split-dose recovery and repopulation in jejunal crypt cells in vivo (RTO 00532)
P. Blott and K. R. Trott (U.K.) 73

The effect of cisplatin on the repair of radiation damage in RIF1 mouse tumours in vivo (RTO 00554)
A. C. Begg, S. Bohlken and H. Bartelink (The Netherlands) 79

The influence of cisplatin on the response of mouse kidneys to multifraction irradiation (RTO 00574)
F. A. Stewart, Y. Oussoren and H. Bartelink (The Netherlands) 93

Misonidazole chemosensitization of EMT6 spheroids to melphalan (RTO 00566)
M. R. Horsman, P. J. Wood and J. M. Brown (U.S.A.) 103

Repair kinetics of mouse lung (RTO 00594)
V. Vegesna, H. R. Withers and J. M. G. Taylor (U.S.A.) 115

Transmission measurements in mult-rod arrays: a design study for a multi-rod collimator

(Short communication) (RTO 00596)
R. L. Maughan, G. F. Blosser, E. B. Blosser, H. G. Blosser and W. E. Powers (U.S.A.) 125

Announcement 132

Number 2, June 1989

Intraoperative radiotherapy for recurrent and/or residual colorectal cancer
F. A. Calvo, S. M. Algarra, I. Azinovic, M. Santos, L. Escude, J. L. Hernández, G. Zornoza and J. Voltas (Spain) 133

Treatment of breast cancer with segmental mastectomy alone or segmental mastectomy plus radiation
D. A. Kantorowitz, C. A. Poulter, P. Rubin, E. Patterson, S. H. Sobel, B. Sischy, P. M. Dvoretsky, W. A. Michalak and K. Doane (U.S.A.) 141

Single dose versus hyperfractionated total body irradiation before allogeneic bone marrow transplantation: a non-randomized comparative study of 54 patients at the Institut Gustave-Roussy
J. M. Cosset, D. Baume, J. L. Pico, B. Shank, T. Girinski, E. Benhamou, E. Briot, E. Malaise, M. Hayat and J. Dutreix (France) 151

Betamethasone-dixyrazine combination versus high-dose metoclopramide as antiemetic treatment in doxorubucin and cisplatin chemotherapy
B. Sorbe, C. Hallén, N.-G. Skåre and I. Underskog (Sweden) 161

Repair capacity and kinetics of human skin during fractionated radiotherapy: erythema, desquamation, and telangiectasia after 3 and 5 year's follow-up
I. Turesson and H. D. Thames (Sweden, U.S.A.) 169

Optimization of proton and heavy ion therapy using an adaptive inversion algorithm
A. Brahme, P. Källman and B. K. Lind (Sweden) 189

A comparison of dose calculations at points around an intracavitary cervix applicator
H. Meertens (The Netherlands) 199

TBI schedules prior to bone marrow transplantation: requirements for comparison (Letter to the Editor)
T. J. Keane and J. Van Dyk (Canada) 207

Reply to: TBI schedules prior to bone marrow transplantation: requirements for comparison (Letter to the Editor)
J. M. Cosset and B. Shank (U.S.A.) 211

Announcement 213

Erratum 215

Number 3, July 1989

The progression rate of late radiation effects in normal tissue and its impact on dose-response relationships
I. Turesson (Sweden) 217

Role of radiotherapy in metastatic spinal cord compression: preliminary results from a prospective trial
P. Latini, E. Maranzano, S. Ricci, C. Aristei, F. Checcaglini, B.M. Panizza and E. Perrucci (Italy) 227

Prognostic factors for patients with inoperable non-small cell lung cancer, limited disease
S. Kaasa, A. Mastekassa and E. Lund (Norway) 235

Lactation after breast conserving therapy, including radiation therapy, for early breast cancer
A. Rodger, P.J. Corbett and U. Chetty (Canada, U.K.) 243

An intercomparison of the accuracy of computer planning systems for brachytherapy
A.G. Visser (The Netherlands) 245

Neutron measurements around an 18 MV linac
F. Sánchez, G. Madurga and R. Arráns (Spain) 259

Latent-time estimation for late cutaneous and subcutaneous radiation reactions in a single-follow-up clinical study
S.M. Bentzen, H.D. Thames and M. Overgaard (U.S.A., Denmark) 267

A functional assessment of the relative cardiotoxicity of adriamycin and epirubicin in the rat
T.K. Yeung, R.H. Simmonds and J.W. Hopewell (U.K.) 275

Radiosensitivity of human prostate cancer and malignant melanoma cell lines
M. Wollin, T.J. FitzGerald, M.A. Santucci, M. Menon, C. Longcope, F. Reale, J. Carlson, M.A. Sakakeeny and J.S. Greenberger (U.S.A.) 285

Evaluation of L_6, an anti-carcinoma murine monoclonal antibody, in tumor-bearing nude mice
E. Lavie, P.L. Beaumier, L. Brodzinsky, K.E. Hellström and I. Hellström (U.S.A.) 295

Difficulties in evaluating non-randomized studies (Editorial)
R. Arriagada and A. Auquier (France) 307

Number 4, August 1989

Radiation therapy in the treatment of early glottic carcinoma: the experience of Villejuif
A. Lusinchi, P. Dube, P. Wibault, I. Kunkler, B. Luboinski and F. Eschwege (France) 313

Presentation of axillary lymphadenopathy without detectable breast primary (T_0 N_{1b} breast cancer): experience at Institut Curie
F. Campana, A. Fourquet, M. A. Ashby, X. Sastre, D. Jullien, P. Schlienger, A. Labib and J. R. Vilcoq (France) 321

Split-course radiotherapy for urinary bladder cancer
E. Salminen (Finland) 327

Sequential combination of 5-fluoroacil, cis-platinum and irradiation. in unresectable non-small cell lung cancer
H. Nagy-Mignotte, M. Bolla, B. Wuyam, F. Blanc-Jouvan, D. Moro, C. Brambilla, B. Paramelle, F. Vincent, H. Kolodié and C. Vrousos (France) 333

An afterloading brachytherapy device utilizing thermoplastic material
T. H. Kim, B. J. Gerbi, F. C. Deibel, J. R. Priest and F. M. Khan (U.S.A.) 341

Radiation dose assessment in radioiodine therapy. 2. Practical implementation using quantitative scanning and PET, with initial results on thyroid carcinoma
M. A. Flower, T. Schlesinger, P. J. Hinton, I. Adam, A. M. Masoomi, M. A. Elbelli, R. J. Ott, V. R. McCready and C. L. Harmer (U.K.) 345

Comparison of the prediction of the LQ and CRE models for normal tissue damage due to biologically targeted radiotherapy with exponentially decaying dose rates
J. A. O'Donoghue (U.K.) 359

The effect of 3-aminobenzamide in the radiation response of three human cervix carcinoma xenografts
L. R. Kelland and K. S. Tonkin (U.K.) 363

Time-dependent tumour repopulation factors in linear-quadratic equations – implications for treatment strategies
R. G. Dale (U.K.) 371

Cystometric evaluation of early and late irradiation damage to the mouse urinary bladder
F. Lundbeck, N. Ulsø and J. Overgaard (Denmark) 383
